

## Big Data Challenge

**Big Data is one of the fastest growing fields in programming. Get your start in Big Data with the Big Data Challenge: a real-time, hands-on, team vs team competition.**

*No prior experience needed:* At the start of the Big Data Challenge, you'll learn what Big Data is and how it's used, and then learn to work with big data using HPC Systems, an open-source big data processing platform.

*The challenge:* After you've learned the basics, you'll work on a small team to score points by solving as many real-world challenges as you can before time runs out. You'll also have the help of industry mentors.

*The prizes:* Members of the top-scoring team will win IRL awards!
